

Under the National Heavy Vehicle Law, Safe Loads are not just the responsibility of the Driver.

Do you realise that you, as well as your company, could be held legally liable for breaches of “On Road” safety. “Extended Liability” could mean that many roles (people) in your company may be deemed to have committed the same “on road” safety breach.

Safe Loads is one of a series of VTA Academy workshops on Chain of Responsibility (CoR). This workshop is designed to create awareness of the fundamentals of what goes into making loads safe. It deals with all the various components that come together to ensure on road safety, and supports the important role of the driver in dealing with the complexities of loading / unloading and transporting freight.

What the Safe Loads workshop will cover

- How to make a load safe - what to look for
- Loading Guidelines
- Restraints, Equipment & Infrastructure
- Vehicle Mass, Dimensions and Load Balance
- Vehicle Weighing
- Container Weight and Dangerous Goods Declarations
- Driver Health & Safe Vehicle Operation
- Next steps.

Not overweight, At the right time, Product packed appropriately, Correctly balanced, Via the right route, With enough lead time, With the right declarations, Driven by an appropriate driver, The right temperature, On the right vehicle, With the right paperwork, Correctly restrained, With compatible freight, Not over dimension, to the right destination

Workshop outcomes

- You will leave with a clear understanding of the requirements and processes around Safe Loads.
- You will leave with a clear understanding of vehicle mass & dimensional criteria.
- You will leave with the skills and knowledge to assess your compliance to CoR legislation.
- You will leave with the tools to assess all the components that go together to make a load safe.

Who should attend

- Forklift Operators
- Loaders (and Loading Managers)
- Despatch Staff and Managers
- Transport Managers
- Drivers
- Schedulers
- Packers
