

Processes either add value or waste to the production of services. Waste elimination is one of the most effective ways to increase profitability.

This half day workshop will help you better understand waste spots and where they can be found. You will learn techniques which help drive business improvement.

Mindshop facilitator Barry Jenner has a history of improving transport company systems based on the skills given to people. You will be able to help your people be better at what they do and get them to the next level.

You will be taken you through the process of waste identification and the development of a waste reduction plan for your business. You will be able to develop KPI's to help you drive your business and make it more profitable.

Previous attendees:

"Very informative session and will help in setting up projects and managing them".

Michael Mann Glen Cameron Group

"Very informative day – thank you." Paul Seymour Lilydale Instant Lawn

What the workshop will cover

- A series of waste identification processes including the five step waste reduction process and the **seven** categories of waste and where they occur in your business
- Identification of key performance measures to monitor the change in your business
- How to make your business more profitable

Workshop outcomes

- You will leave with skills and knowledge to develop a waste reduction plan to improve profitability
- You will leave having pulled together key strategies and actions into your own One Page Waste Reduction Plan
- You will receive a workbook, and telephone and online support for six weeks following the workshop
